Monthly Postdoc Open Forum

Come meet Valli, Associate Program Director of the Postdoc Office, to ask questions about professional development, career exploration, and other services offered by the Postdoc Office in particular and Notre Dame as a whole. International scholars are also welcome to discuss matters specific to them.

Postdoc Corner

Postdoc Pathways Café

Dr. Kristie Fisher will join us for the next PPC on February 8!

Kristie is a user experience researcher at Google. Researchers at Google gather data and insights to inform all phases of the product development cycle. Kristie conducts foundational research to understand people's needs and define target groups for a given new product or feature, usability studies to help refine and iterate on ideas in partnership with designers and engineers, and survey and usage data analyses to understand how Google products are being used in the wild. Kristie received her PhD in cognitive psychology from the University of Washington in 2011, with a focus on problem solving and analogical reasoning. Before joining Google she worked as a user experience researcher at Microsoft Studios and as a contracted researcher at Microsoft Research.

Events and Workshops

A non-traditional career option for postdocs

How does one coach and refer postdocs toward career paths we do not know or understand? We may have heard certain key phrases at a conference or read about a profession in one of our multiple association publications to which we subscribe, but at the end of the day, how do we justify our description of each potential career and the pros/cons of it, when our direction could very well be what spurs and helps determine someone else’s entire career? Well, to help us gain a wider frame of reference for just these types of situations, here is your opportunity to learn about another potential career profession.
