2019 Summer Grant Writing Program, July 29-Aug 15

The Office of Grants and Fellowships is organizing the annual Summer Grant Writing Program scheduled to take place from July 29 through August 15, 2019. Their grant writing workshops, which include 1-on-1 consultations, are highly successful and yield numerous winners, honorable mentions, and semi-finalists. Register HERE.

There are two focus areas (Track 1: Grant Writing Boot Camp and Track 2: NSF GRFP; AM and PM Sessions). Postdocs and graduate students are welcome to mix and match lectures from both tracks and to attend as many writing sessions as needed. The Office of Grants and Fellowships will provide postdocs with writing space (with unlimited draft reviews and snacks).

Track 1: Grant Writing Boot Camp (recommended for postdocs)
Designed to help new and seasoned grant writers to generate compelling application(s) for the Fall cycle.

Available Lectures
- Optimize Your Resume/CV For Fellowship Applications
- Develop a Long-Term Funding Plan & Learn to Navigate Award Databases
- Looking Ahead to Dissertation Completion and Postdoc Opportunities
- Personal Narrative 101: Match Your Personal Story to Award Criteria in Essays and Cover Letters
- Constructing a Research/Completion Timeline
- Communicating Your Research: The Research Proposal
- Why Does Your Work Matter?

Track 2: NSF Graduate Research Fellowship Program
Designed for first- or second-year NSF GRFP-eligible students who plan to submit their application in October.

Available Lectures
- What is NSF GRFP, and When Should I Apply?
- Maximize Your NSF GRFP Resources and Q&A
- The NSF GRFP Personal Statement
- Intellectual Merit and Broader Impact
- Writing an NSF GRFP Research Proposal
- Why Stop Here? Win other Predoctoral Fellowships in STEM

Indiana Clinical and Translational Sciences Institute

Open RFAs:

- Collaboration in Translational Research (CTR)
  - Opportunity for collaborative translational research projects with strong potential to develop external funding or IP
    - Funding available: up to $75,000 over 2 years
    - Deadline for uploading proposal: July 29, 2019

- Indiana Alcohol Research Center Pilot Project Program
  - Opportunity to develop research on alcohol use disorders
    - Funding available: up to $50,000
    - Deadline for uploading proposal: September 1, 2019

- Pilot Funding for Research Use of Core Facilities (Fall)
  - The Indiana CTSI Pilot Funding program is intended to promote the use of technologies and expertise afforded by the Indiana CTSI Core Facilities available at all partner institutions. Successful proposals will demonstrate outstanding scientific merit that can be linked to generating extramural funding or novel intellectual property (IP). Success of the program will be viewed, in part, by the fostering of new funded grants or providing significant contributions to grant renewals. Therefore, proposals will be judged with equal measure on scientific merit and the likelihood of generating new IP or extramural grant support. Proposals must use a CTSI-designated Core Facility.
    - Submission deadline: September 9, 2019

- Eli Lilly-Stark Neurosciences Post-Doctoral Research Fellowship in Neurodegeneration
  - The Stark Neurosciences Research Institute and the Indiana Clinical and Translational Sciences Institute (CTSI) are seeking applicants for special post-doctoral training fellowships in translational...
(CTS) are seeking applicants for special post-doctoral training fellowships in translational neurodegenerative disease research. We seek applicants whose research is focused on age-related neurodegeneration, including Alzheimer's disease, Parkinson's disease, amyotrophic lateral sclerosis, chronic traumatic encephalopathy, among others. Translational research refers to what is popularly termed as "bench to bedside"; the process by which research in the lab translates into patient treatment. Translational research fosters the multidirectional integration of basic research, patient-oriented research, and population-based research, with the long-term aim of improving the health of the public. Translation can involve everything from basic science discoveries in the lab that directly focus on human disease states, through animal studies and drug development to the development of clinical trials and studies in humans.

- Annual stipend (plus applicable health insurance) is aligned with current NIH recommendations. Annual supplement of $7,500 to be used for travel, computers, and general supplies. Initial funding duration is for one (1) year, and is renewable for one (1) additional year pending review and demonstration of satisfactory progress.
  - Submission deadline: September 16, 2019
