Postdoc Welcome: Thursday, August 8th

The Office for Postdoctoral Scholars will be hosting a Postdoc Welcome information session for all new ND postdocs this Thursday, August 8th, at 3:00pm in [110 Bond Hall](#).

Depending on your interests, Associate Director Valli Sarveswaran will connect you with one or more of our postdoc groups, which include: the Postdoc Women's Committee, the International Postdoc Focus Group, or simply a postdoc from your department or your native country. At the end of the session, you will receive some free ND postdoc swag items! If you haven't RSVP'd yet, please e-mail [Valli](#) to let him know you are coming.

from SCIENCE to PHARMA Webinar: August 16th-19th, 2019

GLOBAL ONLINE MEDICAL SCIENCE LIAISON TRAINING

To our STEM postdocs, the [from SCIENCE to PHARMA](#) team is offering a free webinar for those of you who may be interested in the rapidly growing profession of Medical Science Liaisons (MSLs):

More and more postdocs are pursuing the MSL role as their next career. However, getting in an MSL job is not easy as you do not have all the right experience (yet). We know, we have been there ourselves as postdocs.

We have therefore developed a free webinar where you will learn what the MSL role is about and how to avoid the common mistakes. The next webinar is in the weekend of the 16th-19th of August and you can sign up for free [here](#).

In this webinar we will cover:

- What the MSL role really is about
- The day in a life of an MSL
- Strength and weaknesses of a scientist
- How to avoid getting your CV rejected 50 times
- How to avoid the rejection ("You don't have MSL experience")

- Learn about your net worth as an MSL (3-4 times your current salary)

After you have signed up for our free webinar, have a look at some of the [stories from previous postdocs who are now MSLs](#).

Talk to you soon,
The "from SCIENCE to PHARMA" team

Various deadlines

Indiana Clinical and Translational Sciences Institute

Open RFAs:

- [Indiana Alcohol Research Center Pilot Project Program](#)

- Opportunity to develop research on alcohol use disorders
 - Funding available: up to \$50,000
 - Deadline for uploading proposal: September 1, 2019
 - [Pilot Funding for Research Use of Core Facilities \(Fall\)](#)
 - The Indiana CTSI Pilot Funding program is intended to promote the use of technologies and expertise afforded by the Indiana CTSI Core Facilities available at all partner institutions. Successful proposals will demonstrate outstanding scientific merit that can be linked to generating extramural funding or novel intellectual property (IP). Success of the program will be viewed, in part, by the fostering of new funded grants or providing significant contributions to grant renewals. Therefore, proposals will be judged with equal measure on scientific merit and the likelihood of generating new IP or extramural grant support. Proposals must use a CTSI-designated Core Facility.
 - Submission deadline: September 9, 2019
 - [Eli Lilly-Stark Neurosciences Post-Doctoral Research Fellowship in Neurodegeneration](#)
 - The Stark Neurosciences Research Institute and the Indiana Clinical and Translational Sciences Institute (CTSI) are seeking applicants for special post-doctoral training fellowships in translational neurodegenerative disease research. We seek applicants whose research is focused on age-related neurodegeneration, including Alzheimer's disease, Parkinson's disease, amyotrophic lateral sclerosis, chronic traumatic encephalopathy, among others. Translational research refers to what is popularly termed as "bench to bedside"; the process by which research in the lab translates into patient treatment. Translational research fosters the multidirectional integration of basic research, patient-oriented research, and population-based research, with the long-term aim of improving the health of the public. Translation can involve everything from basic science discoveries in the lab that directly focus on human disease states, through animal studies and drug development to the development of clinical trials and studies in humans.
 - Annual stipend (plus applicable health insurance) is aligned with current NIH recommendations. Annual supplement of \$7,500 to be used for travel, computers, and general supplies. Initial funding duration is for one (1) year, and is renewable for one (1) additional year pending review and demonstration of satisfactory progress.
 - Submission deadline: September 16, 2019
-

Job Postings

- Engineering:
 - [Assistant Professor, Chemical Engineering](#)
 - [Computer Vision Engineer-Artificial Intelligence](#)
 - Humanities:
 - [Assistant Professor, Religion](#)

Open Consulting Hours

Come meet Valli, Associate Program Director of the Postdoc Office, to ask questions about professional development, career exploration, and other services offered by the Postdoc Office in particular and Notre Dame as a

whole. International scholars are also welcome to discuss matters specific to them.

Date: Thursday, August 15

Time: 2 - 4 pm

Location: Stinson Remick, across Room 100

Date: Thursday, September 5

Time: 2 - 4 pm

Location: McCourtney Hall First Floor, by Espresso Cart

Did You Know...

...that Notre Dame has an incredible performing arts center, the DPAC, and you can get a sneak peak of the 2019-2020 season's program at their annual Arts Night Out this weekend?

Come and see what's next through a short program on the upcoming 2019-2020 Presenting Series season and much more. Date night, family night or a night with friends - sample what the center has to offer you at this **free** event. Cocktails at 6:30 p.m. (cash bar available). Program at 7 p.m. Open house at 7:30 p.m.

Date: Saturday, August 10

Time: 6:30 pm

Location: DeBartolo Performing Arts Center
