National Center for Faculty Development and Diversity Guest Expert Webinar:
How to Manage Chronic Illness and Academic Life

Facilitator: Therí Pickens, PhD

Maintaining professional productivity while managing a chronic illness has several particular challenges. At times, the scheduling and culture of the academy actively ignores the needs of the body/mind in its demand for scholarly and professional productivity. Drawing on her scholarship and professional experiences, Therí Pickens will discuss strategies for living...
Inclusive Excellence Workshop: Supporting International Students

**Wednesday, January 29, 2020; 3:00 p.m. - 4:30 p.m., Corbett Hall**

With more than 1,450 international students from 90 countries, Notre Dame is rich in opportunities to impact and be impacted by their experiences and ideas. In our support of them, we can sometimes lose sight of the added layer of complications and limitations they may experience as an international student in the U.S. The more we can understand those complications, the stronger relationships we build in support of their success. This 90-minute training explores the international student’s journey and the resources we are growing to support them while also encouraging participants to share their own experiences. We will work towards a toolbox of strategies for understanding and resourcing our international student population.

Presented by:
Science Policy Initiative (SPI) Policy Forum
Thursday, January 30; 5:00 p.m. - 6:00 p.m., 106 Duncan Student Center

SPI's monthly policy forum meeting open to all, students and faculty of all academic levels as well as local community members. Food and light refreshments will be served.

The monthly topic and event details will be posted for each meeting in the linked agenda/minutes here. These will ideally be shared at least 1 week prior.

Feel free to subscribe to the SPI calendar here.

Did You Know...

...that the University's 3rd annual Gold Mass for Scientists and Engineers is being celebrated today? The Mass will be followed by a reception and then the Edison Lecture in Jordan Hall by Christopher Baglow, director of the Science and Religion Initiative of the McGrath Institute for Church Life. He'll address the origins of the conflict/warfare model of science and religion.

Gold Mass for Scientists and Engineers: Tuesday, January 28; 5:15 p.m. in the Basilica of the Sacred Heart
Reception: 6:15 p.m. in the Galleria, Jordan Hall of Science
Lecture: 7:15 to 8:15 p.m. in Room 105, Jordan Hall of Science

All are welcome!
