Navari Family Center for Digital Scholarship Workshop: Using the Distant Reader

Wednesday, February 26; 11:00 a.m. to 12:00 p.m.
Hesburgh Library 2nd Floor // Consultation Room 247

Learn how to automatically "read" and "analyze" an arbitrarily large corpora of textual materials in this workshop offered by the Navari Center for Digital Scholarship!

The Distant Reader, a locally-written system, can accept as input large volumes of URLs or any number of files from your computer. It then creates a corpus from the input, converts it into plain text, does natural language processing against the plain text, and outputs sets of reports enabling you to use and understand the corpora to a greater degree. Useful to anybody across campus who needs to read large volumes of materials, this hands-on workshop will help you take control of your content.

Kaneb Center Workshop: Universal Design for Learning (open to postdocs!)

Tuesday, March 3; 10:30 to 11:45 a.m. in Room 246, Hesburgh Library

Instructors: Carson Running and Kathryn Mulholland
Graduate Associates, ND Learning | Kaneb Center

Do you ever wonder how to teach a diverse group of learners and still meet your curriculum requirements? Universal Design for Learning (UDL) is a framework to improve and optimize teaching and learning for all people based on scientific insights into how humans learn. This workshop will prepare you to implement UDL in your classroom, providing more flexibility and fewer barriers to learning.
